Instruction Manual

IMPORTANT WARNINGS AND SAFETY ADVICE

We invite you to read this user manual carefully and completely before installing and using your device.

It is important that this user manual be kept with the device for further consultation. If this device is to be transferred to another person, make sure the user manual follows the device so that the new user can be informed of the operation of the device.

The warning sign showing a lightning bolt in a triangle indicates that this product contains "dangerous electrical voltages".

CAUTION

RISK OF ELECTRIC SHOCK
POWERED DEVICE
DO NOT OPEN

CAUTION: TO AVOID THE RISK OF ELECTROCUTION, DO NOT REMOVE THE COVER (OR THE BACK OF

THE DEVICE).

NO PARTS ARE REPLACEABLE BY THE USER.

PLEASE CONTACT QUALIFIED PERSONNEL IN CASE OF FAILURE.

The warning sign showing an exclamation point in a triangle indicates that this point of the manual requires special attention.

**CAUTION: - TO REDUCE THE RISK OF FIRE,
ELECTRIC SHOCK OR SERIOUS INJURY:**

- This device must only be connected to a mains network whose characteristics are identical to those shown on the device identification plate.
- If it is a class I appliance, the user's protection is grounded. The appliance must be connected to a power supply base with a connection to the protective earth.
- If this device bears the logo , it is a class II electrical device in which the protection against electric shock is not based solely on the main insulation but on a double insulation. It does not have protective grounding.
- The mains plug must always be easily accessible. It serves as a mains disconnecting switch of the device.
- To disconnect the device from the mains, the plug must be disconnected. Hold the mains cable by its plug. Do not pull on the mains cable to disconnect the plug.
- The mains cables must be routed so that they are not trampled upon or pinched by objects placed on or against them.
- If the mains cable of the device is damaged, it must be replaced by the manufacturer, its after-sales service or a similarly qualified person to avoid any danger.
- The device must not be exposed to dripping or splashing water, moisture or liquids.
- Do not place the device near water, for example in a bathroom or near a sink.
- No objects filled with liquids such as vases should be placed on or above the device.

- Never touch the mains cable with wet hands, this could cause a short circuit or electric shock.
- To avoid the risk of fire, do not place sources of open flames, such as lighted candles, or heat sources such as radiators, on or near the device.
- The device is intended for use only in a temperate climate.
- If smoke, an unusual odour or strange noise is emitted by the device: unplug the mains cable from the electrical outlet and consult the after-sales service or repair centre. Never attempt to make repairs yourself, this could be potentially dangerous.
- Do not attempt to open or disassemble the device. This would expose you to dangerous voltages.
- The slots and openings of the device are intended for ventilation and to ensure its operation. To prevent overheating, these openings must not be obstructed or covered in any way, such as by newspapers, tablecloths or curtains.
- Always leave a minimum distance of 10 cm around the device for sufficient ventilation.
- Never push any object into the device through one of its openings, as it may come into contact with electrical components, which can cause an electric shock or fire.
- In case of thunderstorm or lightning, immediately unplug the mains cable from the wall outlet.
- Always turn off the device when not in use. Unplug the mains cable from the electrical outlet when the device will not be used for a long period of time.
- Unplug the device from the electrical outlet before cleaning. Do not use liquid or aerosol cleaners. Use a dry, soft cloth for cleaning.

CAUTION: TO AVOID RISK OF INJURY OR DAMAGE TO THE PRODUCT OR OTHER EQUIPMENT:

- This product is intended for household and personal use only. Do not use this product for commercial, industrial or other purposes.
- Do not subject the product to strong shocks, extreme temperatures or direct sunlight for prolonged periods.
- Keep the product away from magnetic objects, motors and transformers.
- Do not use the product outdoors, regardless of weather conditions.
- Install the device only on a stand (furniture, wall...) that can support its weight safely.
- **WARNING:** Never place a TV in an unstable place. This can fall, causing injuries or even the death of a person. Many injuries, especially in the case of children, can be avoided by taking simple precautions such as:
 - The use of furniture or stands recommended by the TV manufacturer.
 - The exclusive use of furniture that can support the weight of the TV safely.
 - Make sure that the device does not protrude from the edge of the furniture on which it is placed.
 - Never place the device on a tall piece of furniture (e.g. cabinets or bookcases) without attaching both the furniture and the device to a suitable stand.
 - Do not place the device on a trolley or on a stand that is not stable. Do not install the device on any fabric or other materials placed between its base and the supporting furniture. The device could fall and be damaged or seriously injure a person.
 - Do not use or watch the TV while driving. This is dangerous, and illegal in some countries.

- Explain to children the dangers they face when climbing on the furniture to reach the device or its controls.
- If you keep this device and change the location, you should apply the same considerations.
- **CAUTION:** to avoid accidents, this device must be securely attached to the floor or wall according to the installation instructions.

CAUTION: TO AVOID EYE HAZARDS:

- It is best to have soft indirect lighting to watch TV. Avoid completely dark environments and any reflection on the screen, as these can cause eyestrain.

USE AND HANDLING OF BATTERIES:

- **CAUTION:** danger of explosion if the batteries are not inserted correctly or if they are replaced by a non-similar or incompatible model.
- Replace the batteries only with batteries of the same type AAA/LR03.
- Batteries must not be exposed to excessive heat such as that from the sun, fire or similar origin.
- Never throw batteries into fire and never expose them to heat sources.
- Do not mix different types of batteries, or new and used batteries.
- The batteries must be inserted according to the polarities indicated on the battery and in the battery case of the remote control.
- Used batteries must be removed from the remote control.

- The batteries must be disposed of safely at the assigned specific collection points to preserve the environment. Follow the disposal instructions indicated on the batteries and at the collection points.
- Keep batteries out of the reach of children and animals. Only adults are capable of handling the batteries.

For installation, handling, cleaning and disposal of the device, refer to the following chapters of the user manual.

To avoid possible hearing damage, do not listen at a high sound level for a long time.

EU Declaration of Conformity:

Market Maker Brand Licensing hereby declares that the device complies with the essential requirements and other relevant provisions of Directive 2014/53/EU. The Declaration of Conformity can be viewed at the following address:

| Stand | | 2 piece |
| Remote control | | 1 piece |
| Instruction manual | | 1 piece |

III. INSTALLATION

A. Unpacking

Your TV should be unpacked and handled by 2 people, to avoid any risk of deformation or impact on the LED display.

Start by preparing a flat surface covered with a soft, thick fabric (a blanket, for example). The prepared surface area must be larger than the size of the TV. This will allow the TV to be laid flat with the LED screen facing the floor.

Before removing the TV from its packaging, read the sections "Wall Mounting" and "Stand Legs Installation" to prepare yourself for the installation operation you have chosen.

Remove the TV from its packaging by lifting it vertically, then place the TV screen flat on the previously protected flat surface so that either the stand legs or a wall mounting bracket (not included) can be attached.

Packaging materials

- The packaging cardboard is recyclable.
- The materials marked with the symbol  are recyclable.
- >PE< = polyethylene; >PS< = polystyrene; >PP< = polypropylene; ... This means that they can be recycled by disposing of them in appropriate collection containers.
- Other packaging elements (adhesive, fasteners, etc.) should be disposed of with household waste.

For more information: www.quefairedemesdechets.fr

B. Wall mounting

- Contact a professional for assistance with the wall mounting of your TV set. We cannot be held liable for any damage or injury caused by the mounting of the TV set.
-  The TV must be mounted on a vertical wall. This TV is not intended for installation on a sloped wall.
- The TV must be turned off and disconnected from the power supply when you mount it to the wall. Failure to comply with these precautions may result in electric shock or electrocution.
- The mounting bracket must correspond to the centre distances indicated below.

NOTE: The screws supplied are used for fixing the stand legs only. If you want to mount the TV on a wall, contact a professional to find out how to install a wall bracket.

Rear view of your TV set

C. Installing the stand legs

⚠ Your TV set comes with uninstalled stand legs. Before using this TV as a free-standing unit on a furniture, install the stand legs as shown below.

Step 1

Place the TV flat, with the screen facing down, on a flat surface covered with a soft, thick cloth to prevent damage.

The bottom edge of the TV should protrude slightly from the edge of the flat surface, to allow the stand legs to be fixed without damaging the LED display.

Step 2

Align the bottom of the TV with the stand legs until they are fully in place (aligned mounting holes).

Step 3

Tighten the supplied screws with a screwdriver.

NOTE: unplug the TV from the AC outlet when installing or removing the TV legs.
Contact one of our distributors to learn more about how to install and remove the TV legs.

D. Basic connections

- Ensure all the cables are disconnected from the main unit before connecting to AC power source.
- Read through the instructions before connecting other equipments.

CONNECTING TO AC POWER SOURCE

CONNECT EXTERNAL ANTENNA TO UNIT

Install external antenna into antenna jack for best picture.

HEADPHONE

OPTICAL

RJ 45 and HDMI

Us RJ 45 that You can browse video on the Internet. Some TV sets can also download video on the Internet for watching at any time.

V. MAINTENANCE AND CLEANING

Before servicing your TV, make sure it is turned off and the power cable is disconnected.

- Wipe the TV with a soft, dry cloth.
- If the surface is very dirty, wipe it with a soft cloth slightly soaked in water. Then wipe again with a dry, soft cloth.
- Never insert objects or liquids into the ventilation openings of your TV. This could damage it, or even cause a short circuit or risk of electric shock.

 Never use alcohol, benzene, solvents or other chemicals. Do not use compressed air to remove dust.

VI. TROUBLESHOOTING TIPS

Some malfunctions can be easily resolved. Before calling on the service department or a repair technician, consult the following information:

| Symptoms | Solutions |
|---|---|
| The TV does not turn on. | <ul style="list-style-type: none"> ● Check the connection of the power supply cord. ● Carefully connect the power cord to another power outlet. |
| No picture or picture of poor quality. Picture is not displayed in full screen. | <ul style="list-style-type: none"> ● Make sure that the equipment is properly connected, especially the ANT antenna or cable from the source used. ● Try another channel. ● Check and adjust the image size option. ● Adjust the antenna or use another antenna. ● Check the contrast and brightness settings. ● Keep the TV away from potential sources of electromagnetic or radio interference. ● Perform a new automatic channel search. |
| No sound, Its distorted, Poor sound quality. | <ul style="list-style-type: none"> ● Adjust the volume using the VOL+/VOL- keys. ● Press the MUTE button to cancel the mute/mute mode. ● Disconnect the headphones. ● If audio equipment is connected, make sure it is properly connected. ● Check that the TV and stereo equipment is properly configured. ● Check the audio settings. |
| Noise or other type of interference. | <p>Electronic equipment adjacent to the unit creates interference.</p> <ul style="list-style-type: none"> ● Check the connections of the equipment cables. ● Move the TV or equipment concerned. |
| The remote control does not work. | <ul style="list-style-type: none"> ● Use the remote control at a distance of less than 6m. ● Remove any potential obstacles between the remote control and the IR receiver of the TV. ● Clean the lens of the remote control. ● Make sure the batteries are properly installed. ● The batteries may be dead. Replace them. Try again by pointing the remote control at the infrared receiver on the TV. |
| The buttons do not work (TV or remote control). | <ul style="list-style-type: none"> ● Disconnect the power cord and then carefully reconnect it (the TV may fail due to a storm, static electricity, etc.). |

| Symptoms (continued) | Solutions (continued) |
|-----------------------------------|--|
| Only some channels are available. | <ul style="list-style-type: none"> ● Check that your area is covered by the DTV broadcast. ● Check if channels are not blocked by the "Block program" settings. ● Checks to be performed in case of poor image quality. |
| The USB stick does not work. | <ul style="list-style-type: none"> ● Check the USB connection. ● The USB stick is not formatted. ● Make sure that the USB stick is compatible and that multimedia data formats can be played back. |
| The TV turns itself off. | <ul style="list-style-type: none"> ● Check if the "Sleep Timer", "Auto Standby" settings are not activated in the Time menu. ● If the TV is used as a PC monitor, check the PC's power and standby settings. |
| Color dots appear on the screen. | <ul style="list-style-type: none"> ● Although the LED display is manufactured with high-precision technology, black or colored dots (red, blue or green) may appear: this is a structural property of the display and not a malfunction. |

VII. WARRANTY

The warranty does not cover product wear parts, problems or damage resulting from:

1. Surface damage due to normal product wear and tear;
2. Defects or damage due to contact of the product with food or liquids and due to corrosion caused by rust;
3. Any incident, misapplication, misuse, alteration, disassembly or unauthorized repair;
4. Any improper maintenance operation, use not in accordance with the instructions concerning the product or connection to an incorrect voltage;
5. Any use of accessories not supplied or approved by CONTINENTAL EDISON.

 The warranty will be cancelled if the nameplate and/or product serial number is removed.

VIII. DISPOSAL

This logo on the product means that it is an appliance whose treatment as waste falls within the framework of the European Directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE), which requires that used household appliances be collected separately in order to optimize the recovery rate and recycling of the materials they contain, and reduce the impact on the environment and human health.

Thus, at the end of the life of this device, it must not be disposed of with unsorted household waste. It must be disposed of in the return and collection systems made available to you by local authorities (waste collection centres) and distributors.

As an end consumer, your role is essential in the reuse, recycling and other forms of recovery cycle of this Electrical and Electronic Equipment.

You are required to use the selective collection systems available to you.
